

## BUSINESS BROADBAND ANYWHERE

Rock Satellite Services can get your business online where ADSL or Superfast Broadband cannot. If it is not possible to have a fixed line, a satellite broadband solution can be your answer. We can support setting up your office and also provide VoIP telephones without the line rental costs

- ✓ Manage your business with reliable and fast internet access
- ✓ Up to 22Mbps Download and 6Mbps Upload broadband connection wherever you need to operate
- ✓ Telephone and on-site support to ensure you stay connected
- ✓ Access to VoIP telephone systems for your business
- ✓ Demos and trial periods available
